

Remote Learning Plan

<p>All students should follow Plan A unless there are technical difficulties.</p>	<h3>Plan A</h3> <p><i>If students can access the internet and the Microsoft Teams application is running without interruption</i></p>	<h3>Plan B</h3> <p><i>If there are issues with the Microsoft Teams application and you are unable to take part in 'live' lessons, but you still have internet connection.</i></p>	<h3>Plan C</h3> <p><i>If students are unable to access the internet from home.</i></p>
<p>Year 10</p>	<p>Make use of resources located on the 'Online Learning Resources' page of the curriculum section of the website.</p> <p>Follow your normal timetable as much as possible and complete relevant subject tasks.</p> <p>Use some of the time to read a book and develop your literacy skills.</p>		<p>Students who have told us they have no internet access will be provided with a paper based learning resource pack.</p>
<p>Year 11</p>	<p>Attend online lessons hosted by your teachers. These will be following the same timetable as normal lessons.</p> <p>Use some of the time to read a book and develop your literacy skills.</p>	<p>Make use of resources located on the 'Online Learning Resources' page of the curriculum section of the website.</p> <p>Follow your normal timetable as much as possible and complete relevant subject tasks.</p>	
<p>Year 12 & Year 13</p>	<p>A Level students*: Attend online lessons hosted by your teachers. These will be following the same timetable as normal lessons.</p> <p>EPQ students use email to maintain contact with your teacher.</p> <p>Technical students**: Work on your assignments from home. All of these resources can be located via Teams. You may need to attend 'live lessons' via Teams for any external examined units. If this is the case then the class teacher will send a message through email and Teams.</p>		

*A Level students: Maths, Further Maths, Physics, Computer Science, Applied Science, Psychology

**Technical students: Engineering, Cyber Security, Digital Technologies
